Eva Longoria for L'Oréal Paris

1

Begin by applying **Infallible Foundation in Sand Beige** evenly over the face. If required, apply more to areas that need it such as around the nose and chin.

2

Using **Eva Longoria's Color Appeal Star Secrets in Lilac**, apply the lightest shade from lashline to brow. Use the applicator to blend pink shade over lid and into crease. Starting from the centre, place lilac shade along lower lashline and towards the outer corners.

3

Trace along top lash line with **Contour Resist Eye pencil in Black**.

4

Apply two coats of **Lash Architect Black mascara** to top and bottom lashes adding a third at the outer corners.

5

For lips, finish with a generous coat of **Glam Shine Rose Crystal**.

Quick Tip:

If you are looking for a subtle change in your look but don't want to change the color of your usual make up, try swapping your lipstick for lip gloss in a similar shade.
